PROFESSIONAL SUMMARY

Result-driven junior frontend developer with a strong foundation in JavaScript, TypeScript, React, and Next.js, strengthened by hands-on experience from an internship at PlanetAlba and formal training at Moringa School. I excel at creating intuitive, responsive, user-friendly interfaces, integrating APIs, and utilizing Tailwind CSS for clean, modern designs. Adept at writing efficient, scalable code and collaborating with cross-functional teams to deliver high-quality web solutions. With a strong commitment to continuous learning and technical innovation.

EXPERIENCE

FRONTEND DEVELOPER - INTERNSHIP *PlanetAlba - May 2024 - July 2024*

- Collaborated with senior developers to design and implement interactive user interfaces using React.js and Tailwind CSS.
- Contributed to the development of responsive web applications, optimizing performance and user experience across multiple devices.
- Assisted in debugging and troubleshooting frontend issues, improving the overall functionality and aesthetics of the platform.
- Gained hands-on experience in version control using Git and deployed features using Vercel for continuous integration.

EDUCATION

MORINGA SCHOOL - SOFTWARE DEVELOPMENT *September 2023 - March 2024*

- Completed an intensive program focused on full-stack web development, with a strong emphasis on JavaScript, React.js, Python, Flask, FastAPI and SQL.
- Acquired practical skills in frontend development, backend integration, and agile methodologies.
- Built and deployed multiple projects, enhancing problem-solving abilities and hands-on coding experience.

PROJECTS

NEXUS SALES
https://nexus-sales-dashboard.vercel.app/

- Developed a dynamic admin sales dashboard, displaying real-time data on orders, revenue, customers, and product performance.
- Implemented intuitive data visualization techniques to present sales trends and key performance indicators.
- Integrated interactive components for efficient monitoring and management of sales and customer orders.
- Utilized responsive design principles to ensure seamless usability across different device types and screen sizes.

COINPULSE
https://coin-pulse-seven.vercel.app/

- Built a cryptocurrency insights platform by integrating CoinGecko's API to fetch and display real-time data on prices, market caps, and trending coins.
- Designed an interactive and user-friendly UI that provides key analytics and trends for the cryptocurrency market.
- Developed features to dynamically update and display cryptocurrency data, ensuring users receive accurate and timely information.
- Implemented responsive and optimized front-end elements for seamless access to financial insights across various devices.

TRACEMYIP
https://trace-my-ip.vercel.app/

- Developed an IP tracking application that integrates an IP tracking API to display real-time location data based on user IP addresses.
- Implemented interactive map features to visually represent the geographical location of traced IPs.
- Built a user-friendly interface to effectively display IP details and corresponding location data in an accessible format.
- Implemented responsive and optimized front-end elements for seamless access to financial insights across various devices.

DEVHIRE
https://devhire-lemon.vercel.app/

- Developed a job board platform connecting developers with remote opportunities by integrating CrackedDevs job API for real-time job listings.
- Implemented search and filtering functionalities to help users easily find remote developer roles at the tech companies they are interested in.
- Designed a clean and responsive user interface, ensuring optimal user experience across multiple devices.
- Built dynamic components to display job postings and company profiles, enhancing the overall functionality of the platform.

SKILLS

Languages: Javascript, CSS/HTML
Frameworks & Libraries: Reactjs, Nextjs, Tailwind Css, Bootstrap. **Developer Tools:** Git, Npm
